A. A. Noman **Ansary**

aanomanansary.com.bd | aanomanansary@gmail.com | linkedin.com/in/showrav-ansary | github.com/showrav-ansary

EDUCATION

BRAC UNIVERSITY
BSc in Computer Science
Dhaka, Bangladesh
School of Data and Sciences

SKILLS

AI / ML & DATA SCIENCE

LLMs • RAG • AI Agents • NLP
OCR • Prompt Engineering
Model Fine-Tuning • PyTorch

PROGRAMMING

Proficient:
Python • Java • JavaScript • SQL
Bash • Node.js • MongoDB • Three.js
Experienced:
C • HTML5 • CSS3
Familiar:
Dart • Flutter • Git • Linux

COURSEWORK

UNDERGRADUATE

Natural Language Processing
Advanced Algorithms
Data Structures & Algorithms
Software Engineering
Operating Systems
Database Systems
Computer Networking
Numerical Methods & Linear Algebra
Quantum Computing

CERTIFICATIONS

Blockchain Specialization
University at Buffalo (Coursera)
Responsive Web Design
freeCodeCamp
Flutter Development Bootcamp
Udemy

PROFILES

GitHub:// **showrav-ansary**

EXPERIENCE

AIDOCBUILDER INC. | Data Scientist
July 2025 – Present | aidocbuilder.com

- Deployed a fine-tuned, CPU-optimized OCR pipeline for DHL logistics workflows, **reducing inference latency by 85%** without GPU dependencies.
- Architected an internal OCR model training and evaluation platform, accelerating model experimentation and deployment cycles.
- Built autonomous LLM-based AI agents for hyper-specific client Retrieval-Augmented Generation (RAG) pipelines.
- Implemented guardrails and structured decoding to significantly increase the determinism and reliability of production LLM outputs.

BANGLARMATH | Mathematics Consultant & Game Developer
June 2022 – June 2023 | banglarmath.com

- Developed interactive educational games for classroom environments to gamify mathematical learning.
- Authored curriculum content integrated into national 5th–8th grade mathematics textbooks published by NCTB.
- Conducted pedagogical and technical training workshops for educators and students across partner institutions.

LIGHTOJ | Editorial Moderator
March 2021 – Present | lightoj.com | GitHub Repo

- Recognized as a Top Open-Source Contributor for Bangladesh's premier competitive programming platform.
- Authored 20+ algorithmic problem editorials covering advanced data structures, graph theory, and dynamic programming.
- Conducted code reviews on community editorials to ensure mathematical rigor and optimal complexity analysis.

GULUMULU | Director of IT & Co-Founder
June 2020 – June 2021 | Bogura, Bangladesh | gulumulu.com

- Spearheaded full-stack e-commerce architecture from scratch, scaling infrastructure to fulfill **10,000+ orders**.
- Designed RESTful APIs and responsive interfaces, optimizing checkout flow to **increase conversion and sales rates by 27%**.
- Customized open-source plugins and third-party payment/logistics integrations to meet business requirements.

RESEARCH

BENGALI.AI | Research Assistant
April 2021 – Present | bengali.ai

- Co-developed **bengalianalyzer** (GitHub), an open-source Python library on PyPI for Bengali text analysis.
- Engineered core algorithmic logic and linguistic rule-sets for automated Bengali composite word decomposition.

HONORS & AWARDS

2018	**Vice Chancellor's Award**	BRAC University
2013	**2nd Runner-Up** (Junior)	Bangladesh Mathematical Olympiad
2012	**6th Place** (Junior)	Bangladesh Physics Olympiad
2010	**2nd Runner-Up** (Primary)	Bangladesh Mathematical Olympiad
